“Caring for the Environment”

The Brochure
2007

just green

THE JUST GREEN 2007 BROCHURE

Just Green was founded in the year 2000 to provide products that improve and protect our environment. The first major aim was to provide the UK garden industry with a viable alternative to toxic pesticides.

Just Green now provides the most extensive Natural pest control range available, this is also combined with a comprehensive range of other products designed to help you garden naturally, help wildlife and safeguard the environment. Potentially damaging chemicals are not only found in the garden, they are used in the home and are even applied to our skin. The Just Green 2007 Brochure now offers healthier and safer ways of looking after our homes and bodies in the form of new Natural Homecare and Natural Bodycare products. We also want to help preserve the global environment and have launched our first Green energy products.

Even the production and dispatch of this brochure has been done in a way which minimizes the impact on landfill sites, as we use no polythene wrapping, as most mail order companies do, which takes years to degrade. This is a more expensive way to produce a brochure but we feel the extra investment is very worthwhile. Just Green would also like you to switch more of your orders to online ordering, reducing paper usage and we are offering significant discounts to encourage this.

Thank you for your interest in Just Green and any business you have placed with us in the past. If you can help us further by introducing friends or family to our green approach then we will reward you for this (see the order page). Our aim is to provide you with high quality products, backed up with our fast and efficient delivery service. We look forward to providing you with the best Natural products in 2007.

GREEN ENERGY

The production of energy from sustainable sources is growing with much public and private investment in this key area for protecting the environment. It is not yet practical or realistic for all homes to generate their own “Green Energy”. However there are important steps that can be taken to use less energy and use what resources are available in an efficient way.

- Manage your own use of energy efficiently by switching off appliances on standby and only use energy efficient appliances
- Replace light bulbs with low energy use versions
- Use Solar power or wind up appliances for lighting and phone chargers
- Produce your own fuel by recycling waste products such as paper and wood
- Consider switching to a sustainable energy supplier

Just Green now offers a range of options and products that can help achieve these goals in a practical and economic way.

LIGHTING

ENERGY SAVING LIGHT BULBS

The cost of energy continues to rise and many forms of lighting are relatively inefficient to run. By using energy saving light bulbs significant amounts of electricity can be saved and your electricity bill reduced.

- Average life of 12,000 hours as opposed to 1,000 hours for ordinary GLS household lamps
- At 11 watt ambience they produce an electricity saving of 80%, this produces a further saving in that there is 80% less heat output

GLS COMPACT 11 WATT LIGHT BULB

- Equivalent to 60 Watt normal light bulb
- Average rated life 8000 hours
- Energy saving
- Compact size
- Not suitable for use with dimmer switches
- Dimension L;139mm W;60mm

PLET COMPACT 11 WATT LIGHT BULB

- Equivalent to 60 Watt normal lightbulb
- Average rated life 15,000 hours
- Energy saving
- Compact size
- Not suitable for dimmer switches
- Dimension L;115mm W;42mm

GLS COMPACT 15 WATT LIGHT BULB

- Equivalent to 75 Watt normal light bulb
- Average rated life 8000 hours
- Energy saving
- Compact size
- Not suitable for use with dimmer switches
- Dimension L;139mm, W;60mm

PLET COMPACT 15 WATT LIGHT BULB

- Equivalent to 75 Watt normal light bulb
- Average rated life 15,000 hours
- Energy saving
- Compact size
- Not suitable for dimmer switches
- Dimension L;115mm;W;42mm

PLET COMPACT 20 WATT LIGHT BULB

- Equivalent to 100 watt normal light bulb
- Average rated life 15,000 hours
- Energy saving
- Compact size
- Not suitable for use with dimmer switch
- Dimension; L115mm, W;42mm

GLS & PLET COMPACT LIGHT BULBS

JG658	GLS Compact 11 Watt Light Bulb Screw cap - 8000 hours	£7.95

JG655	PLET Compact 20 Watt Light Bulb Screw cap - 15,000 hours	£8.20
JG652	PLET Compact 20 Watt Light Bulb Bayonet - 15,000 hours	£8.20

SOLAR LIGHTING

Another way to help reduce your electricity use and contribute to reducing global warming is by switching to Solar powered lighting where possible.

SOLAR SECURITY LIGHT

The Solar security light does not require any mains electricity and is ideal for illuminating paths, garage entrances, backyards and driveways etc. During the day the solar panel will top up the battery pack, which powers the unit in darkness.

- 10 Watt/6v halogen bulb with PIR Motion sensor
- Fully adjustable light
- 10 m field of vision
- 180 degree detection angle
- Battery pack allows up to 50 illuminations of 20 seconds every 24 hours
- Replaceable sealed lead acid battery pack
- 2 mounting options
- No operating costs
- 1 years manufacturers warranty
- Panel 6V/batt 9.6v

JG680 Solar security light **£44.00**

DISCOUNT FOR MULTIPLE BUYS!

JG681 2 x Solar security lights **£80.00**

JG679 5 x Solar security lights **£175.00**

GLOWSTAR LANTERN

The Glowstar lantern is the perfect Solar powered tool for a wide range of recreational activities including Garden Barbeques, Camping and Caravaning. It also provides an alternative form of lighting when the local supply of electricity is disrupted or un-reliable.

- Provides excellent lighting at all times
- Safe, rugged and fully portable
- Zero running costs
- Long life
- Creates no waste or pollution

The Glowstar features;

- 10,000 hours lamp life
- Glowstar compact fluorescent tubes six times more efficient than most incandescent lamps (10 Watt fluorescent tube equivalent to 60W Tungsten bulb) with a working life 8 x longer
- Durable, tough, glass filled polypropylene high impact plastic construction
- Rain proof and can stand in 160mm of water
- Maintenance free
- All parts corrosion resistant
- 10 minute shut down warning
- Long battery life
- Cigarette socket output enabling mobile phone charging (Glowstar GS7 version)

GLOWSTAR MODEL OPTIONS;

**Glowstar Lantern and 5W Solar panels
Lantern with 7.2 Ahr Battery, 7W
lamp and 2 Solar panels with 10m
cable**

JG692 Glowstar Lantern and
5W Solar panels **£128.00**

**Glowstar Lantern and mains charger
Lantern with 7.2Ahr Battery and 7W
lamp and car charging adaptor.**

JG690 Glowstar Lantern
and car charger **£75.00**

**Glowstar Lantern and mains charger
Lantern with 7.2 Ahr Battery and 7W
lamp and AC mains charging adaptor**

JG691 Glowstar Lantern
and mains charger **£85.00**

TORCHES

Solar energy is not the only form of free energy, wind up technology is also now easy to use and obtain. Just Green now offers the superb RAC wind up range of torches, which can also incorporate phone charging and radios.

WIND UP LED TORCH

The torch is recharged by winding up and can be used to recharge mobile phones.
(adaptors included to fit most Nokia, Motorola and Sony Ericsson mobile phones)

Also features;

- Super bright 5 LEDs light
- 1,2,3, 4 or 5 LEDs can be used at any time
- LEDs never need replacing
- Very compact and lightweight
- Full colour clamshell packaging

WIND UP RADIO TORCH

This wind up torch is also a radio and can be used to re-charge a mobile phone.
The torch and radio recharge.

Also features;

- 5 high intensity LED Hazard warning light on one end, useful for the car if broken down.
- FM radio with auto scan button
- Krypton bulb, which are 70% brighter than standard bulbs
- Vehicle cigarette lighter socket with lead for re-charging
- Can also use 3AA batteries

JG682 RAC Wind up LED Torch **£10.00**

JG683 RAC Wind up Radio Torch **£20.00**

RAC WIND UP LED LANTERN

This torch lantern is ideal for a variety of uses, whether it be as a torch or as a lantern to use in the garden or to keep in the car. It also has a magnetic base, which enables it to be suspended on metal surfaces. It can be re-charged with the wind up lever or in a cigarette lighter socket. Also integrated into this environmentally friendly product:

- Can be used to recharge mobile phones
- Super bright dual function LED spotlight
- 5 LEDs for maximum power
- 3 LEDs for energy saving
- Each LED has a magnifier for maximum power
- LEDs never need replacing
- Pivoting spotlight head
- Powerful magnetic base
- Handle glows in the dark

JG684 RAC Wind up LED Lantern **£30.00**

GREEN FUEL MAKERS

Reduce the amount of waste that goes to landfill sites and use it for making your own fuel, this benefits the environment and saves money. Just Green have two very useful products to help achieve this.

BRIQUETTE MAKER

The Briquette maker gives free energy from old newspapers! Offering an effective alternative to charcoal. The paper briquettes it produces burn easily eliminating the need for firelighters or barbeque fuel. They are completely non-toxic and each briquette burns steadily for up to 2 hours, leaving minimum ash. The Briquette maker compresses your old newspapers into solid high energy briquettes. Ideal for lighting fires, BBQs and stoves etc.

Help preserve the environment by re-cycling your old newspapers and waste paper:

JG668 BRIQUETTE MAKER **£20.00**

LOGMAKER

Try the easy to use Log maker and help reduce the rubbish put in landfill sites. These logs can be made from newspaper, cardboard, leaves and even twigs. The log maker creates fuel logs that can be used straight away without the need to be wetted first. The logs can be used in open fires, solid fuel and wood burning stoves. They make an ideal starter fuel. The log can last for up to an hour depending on the materials used in it.

JG672 LOG MAKER **£20.00**

GREEN ELECTRICITY

JUST GREEN is now supporting nationwide and global efforts to protect the environment and help fight climate change. The largest impact on global warming from the UK is the use of fossil fuels.

JUST GREEN can now provide you with an easy way to switch your source of electricity to a green electricity supplier. This company is called **ECOTRICITY**. They invest more per customer than any other company in electricity produced from sustainable and non-polluting sources, i.e wind power. All profits are invested in building new wind turbines.

- There is no premium to pay for switching your supply. The new energy tariff provided will match the standard price of each regional supplier.
- Ecotricity can supply your home anywhere in mainland UK, as they use the existing network
- It is easy to switch

Click on the **JUST GREEN** webpage link or click on www.ecotricity.co.uk/justgreen and you will be provided the special **JUST GREEN** code of **JGI**, follow the easy steps to switching over from your existing supplier to **ECOTRICITY**.
