## THE JUST GREEN 2007 BROCHURE

**Just Green was founded in the year 2000 to provide products that improve and protect our environment. The first major aim was to provide the UK garden industry with a viable alternative to toxic pesticides.**

Just Green now provides the most extensive Natural pest control range available, this is also combined with a comprehensive range of other products designed to help you garden naturally, help wildlife and safeguard the environment. Potentially damaging chemicals are not only found in the garden, they are used in the home and are even applied to our skin. The Just Green 2007 Brochure now offers healthier and safer ways of looking after our homes and bodies in the form of new Natural Homecare and Natural Bodycare products. We also want to help preserve the global environment and have launched our first Green energy products.

Even the production and dispatch of this brochure has been done in a way which minimizes the impact on landfill sites, as we use no polythene wrapping, as most mail order companies do, which takes years to degrade. This is a more expensive way to produce a brochure but we feel the extra investment is very worthwhile. Just Green would also like you to switch more of your orders to online ordering, reducing paper usage and we are offering significant discounts to encourage this.

Thank you for your interest in Just Green and any business you have placed with us in the past. If you can help us further by introducing friends or family to our green approach then we will reward you for this (see the order page). Our aim is to provide you with high quality products, backed up with our fast and efficient delivery service. We look forward to providing you with the best Natural products in 2007.

# NATURAL BODYCARE

Just Green not only has aims to remove toxic chemicals from the garden but also the ones that we come directly into contact with, such as those applied to our skin for Sun protection and those we clean with and use for skin care.

Some children and adults develop allergies to the man-made chemicals found almost everywhere, the new **NATURAL BODYCARE** range is 100% natural with organic ingredients.

## ORGANIC SKINCARE

These products are formulated using the highest quality certified organic ingredients, carefully chosen to nourish and smooth even the most sensitive skin. All the moisturisers are easily absorbed and do not contain pore blocking petrochemicals.
