JUST BUG KILLER

Introducing a new non-toxic, safe and highly effective pesticide for soft bodied insect pests including; Whitefly, Greenfly, Blackfly and Scale insects. This product has been granted exemption from registration by the Pesticides Safety Directorate because it works by physical action and not through poisoning with a toxic active ingredient. The unique harmless ingredients in JUST BUG KILLER combine to smother and suffocate insects on contact.

- Non – Toxic pesticide
- Safe for the user
- Safe for the environment
- No harmful residues
- Safe for use on edible plants
- Insects cannot become resistant
- Integrates with the use of beneficial insects

Unit Size: 1 litre R.T.U Bug gun

Outer size: 12 x 1 litre

Pallet size: 288 x 1 litre

R.R.P: £3.99

JUST SLUG STOP

JUST SLUG STOP is a simple, easy to use product that stops slugs eating plants. It is designed to protect plants when they are most vulnerable to attack when they are young. Simply place over seedlings, transplanted plants or susceptible varieties of plants such as Hostas or Delphiniums

- Uses no chemicals
- Easy to use
- Provides ideal microclimate for plants
- Can be re-used many times
- Can be combined with the use of NEMASLUG

SELL LIVE PRODUCTS IN-STORE WITH OUR NEW FRIDGE

Frank Boxell of the R.H.S receiving the first Just Green fridge from Julian Ives, Sales Director of Just Green.

JUST GREEN are the exclusive supplier to the retail sector of the NEMASYS brand of nematodes. These products include control for Slugs, Vine Weevil, Chafer Grubs and Leatherjackets. This range

has the ability to be stored on site in fridges. JUST GREEN is now offering garden centres the opportunity to sell live nematode stock from fridges. JUST GREEN

will rotate the stock of nematodes to ensure live, good quality nematodes are always in place. JUST GREEN will also only invoice for the stock sold.

- Customer can take live product home with no delay
- Provides non-chemical pest control in store
- Faster delivery of a live product than mail order companies
- No stocking cost of nematodes

Please enquire with JUST GREEN about terms and conditions for fridges.

natural born KILLERS

JUST GREEN offers a complete range of beneficial insects for the control of garden pests. The NATURAL BORN KILLER range is supplied through a P.O.S unit to retail centres. Customers simply choose which pest they want to treat by choosing the relevant card from the P.O.S unit. They then write their address on the back of the card and purchase the cards from the retail centre. The cards are then placed in a pre-paid envelope and sent to JUST GREEN for despatch of live product direct to the customers home.

- Retail centres can offer natural pest control
- No stock costs
- Cash positive
- Safe to the environment
- Uses no chemicals
