PROTECTING YOUR NEW PLANTS!

Your newly planted plants may have been grown on from seeds or bought in as young plants but whichever method; pests are happy to eat them! They can be protected naturally without the use of toxic chemicals.

NEW JUST SLUG PROTECT

Slug Protect is a Copper barrier that fits around freshly planted or more mature plants. These Copper barriers will protect the plants from Slugs and Snails. These pests will not move over Copper. Slug Protect gives easy to use and non-chemical protection to vulnerable plants.

- Slug Protect is supplied in 4 or 7 strips as a pack of 5
- Slug Protect strips are fitted around the base of the plants and can be extended by joining together.

4" pack of 5: £9.99 (JG360) 7" pack of 5: £14.99 (JG361)

Also try JUST SLUG STOP!

These Recycled plastic protective collars work by denying Slugs and Snails access to plants. They incorporate a barrier and edge, which prevent Slugs and Snails getting over them. The Slug Stops also provide a better micro-climate for the plant to grow in.

Just Slugstop pack of 6: £10.00 (JG051) Just Slugstop pack of 12: £19.00 (JG052)

BIOLOGICAL PEST CONTROL SLUGS

For areas where it is not possible to use protective barriers such as Potato plantings, don't forget to use Just Slug Killer nematodes for safe and non-chemical pest control.

Try great value Slug Killer programmes for extended or season long control:

COMPOSTING

Growing plants in nutrient rich compost has obvious benefits, why not produce compost from your own kitchen waste? Recycling and reducing landfill has never been more important.

WORM FARMING

Just Green can offer a wide range of domestic worm farms. Composting worms quickly turn kitchen and organic waste into bio-rich compost and nutritious liquid feed.

- The Original Wormery will turn kitchen waste into compost in just 8 weeks!
- Uses native composting worms
- No odour produced
- **Only £60.00** for complete working Wormery (JG480)

For a wider selection of Worm farms; see www.just-green.com

BIOBAGS

As recommended by the Saturday Telegraph gardening section, Biobags are an ideal way of collecting garden waste without using plastic bags.

- Biodegradable bags made from corn
- Available in 20 or 60 litre sizes

Roll of 20 litre bags £2.75 (JG9050)

Roll of 60 litre bags £5.99 (JG9055)

Try our new Kitchen Biobag bin for your vegetable and salad waste, supplied with 75 Biobags for just £15.00

Kitchen Biobag Bin (JG062)

JUST COMPOST ACCELERATOR

For a quicker natural way to speed up the degradation in Compost heaps, try Just Compost Accelerator, which is a natural bio catalyst. Micro-organisms already present in the compost are stimulated to digest organic compounds faster.

500 mil concentrate £4.99 (JG062)
